

My Wellchoice+ has partnered with Impact Health to provide affordable biometric health screenings to employers with as few as 50 employees. Impact Health is the nation's leading provider of clinical testing and health promotion services.

Reducing Health Care Costs

The majority of healthcare costs today result from poor lifestyle choices and health habits. Impact Health identifies high-risk individuals, motivates behavioral changes and encourages enrollment in targeted intervention programs. MWC+ and Impact Health also reinforce healthy lifestyle choices regardless of personal health status. Let MWC+ and Impact Health help you reach your goal of promoting healthy lifestyles while reducing health care costs.

Employees will receive a Know Your Number™ Disease Risk Report and individualized health letter. Employers will receive a HIPAA-compliant Aggregate Population Report that will document outcomes for ROI and also forecast and identify AVOIDABLE future health care costs connected to the new cases of chronic disease that will occur in their employee population over the next 5 years.

Participants Summary Report

The **modifiable risk percentage** broken out by the **modifiable risk factors** that contribute to a specific disease risk is identified in this participant's chart. This individual has a 74% **modifiable risk** of developing Coronary Heart Disease (CHD) within the next 5 years, with the biggest contributors being high cholesterol and smoking.

Sample Chart from Employer Aggregate Report. The Excess Cost shown is specifically driven by the modifiable risk factors out of the normal range.

Diseases	Total Population		National Average	
	Predicted Total Cost	Predicted Excess Cost	Predicted Total Cost	Predicted Excess Cost
Type 2 Diabetes	\$2,873,888	\$2,392,959	\$2,654,689	\$2,235,684
Coronary Heart Disease	\$1,324,148	\$847,219	\$1,379,553	\$957,438
Stroke	\$1,005,171	\$772,950	\$404,340	\$297,915
Heart Failure	\$354,734	\$131,092	\$172,745	\$59,551
COPD	\$139,631	\$58,324	\$188,767	\$74,258
Lung Cancer	\$68,452	\$42,053	\$243,431	\$131,906
All Diseases	\$5,766,024	\$4,244,596	\$5,043,525	\$3,756,752

Employer's Aggregate Report
